4.4 - Determine Viable Options and Provide Recommendation

T&T

Outputs

Determine Viable Options and Provide Recommendation is the process of applying various analysis techniques to examine possible solutions for meeting the business goals and objectives and to determine which of the options is considered the best possible one for the organization to pursue. The key benefits of this process are that it validates the feasibility of proposed solutions and promotes the best course of action for executives and decision makers to meet the business goals and objectives.
